CORE COMPETENCIES

- **Digital Transformation:** Modernizing your business processes with efficient solutions.
- **Lean/Six Sigma:** Collaborative process improvement through proven methodologies.
- **Innovative Solutions:** Solving your most complex challenges with creativity and technical expertise.
- **Process Flow Analysis:** In-depth examination of your operations to identify inefficiencies, and determine cost-effective answers.
- **Full-Stack Development:** Automating tasks and developing solutions to meet your needs.
- **Technology Integration:** Seamless merging of new and legacy systems.

KEY CLIENTS

DIFFERENTIATORS

- **WOSB Certified:** Woman-owned, supporting federal diversity goals.
- **Proactive Problem Solving:** Anticipating challenges and addressing them before they impact your operations.
- **Experienced Team:** Experts in digital transformation, software development, and process optimization.
- **Agile Methodology:** Adaptive project management for your evolving requirements.
- **End-to-End Support:** Providing comprehensive assistance from initial consultation to implementation and beyond, ensuring long-term success.

PAST PERFORMANCE

- **Non-Profit A:** Designed and implemented a custom e-commerce platform for managing conference registrations, content management, and reporting critical registration details.
- **Institution A:** Migrated a legacy system to a modern platform, involving data extraction, transformation, and populating public data stores. Developed multiple custom applications linked to these data stores.
- **Non-Profit B:** Simplified the weekly service production process by designing and implementing optimized workflows. Created comprehensive SOPs for various applications related to production.
